CASEY MILLER
LINCOLN COUNTY COMMISSIONER

Accountable Government

#AccountableGovernment / Campaign Toolkit

RECORD OF SERVICE | 2023-2026

Public access READ FULL SECTION

When I took office and the County did not have a public information officer during my first months as commissioner, I stayed hands-on with implementation - meeting with vendor and implementation teams, helping connect the website and meeting system, working through staff workflows, and helping move the project toward regular use.

County workplace READ FULL SECTION

I have treated County workforce and organizational health as a governing responsibility, not simply an internal HR matter.

Open government READ FULL SECTION

I repeatedly requested comprehensive written Board operating rules and clearer public processes for how an issue reaches the agenda, how the chair and administration exercise authority, how public comment works, and how residents can follow a decision before it is made.

Code enforcement READ FULL SECTION

While serving as Board Chair, I opened the public hearing and moved approval of the ordinance.

NEXT-TERM GOALS

County leadership READ FULL SECTION

Establish a capable, clearly defined administrative structure for Lincoln County - with written rules, understandable authority, strong professional management and clear accountability to the Board.

Strategic planning READ FULL SECTION

Develop a public strategic plan for Lincoln County that establishes a manageable set of countywide priorities, assigns responsibility, connects those priorities to the budget and measures whether the work is actually getting done.

Public spending READ FULL SECTION

Make Lincoln County's major financial decisions easier to trace from original authorization through actual spending and results.

Public participation READ FULL SECTION

Build a governing process where the people affected by County decisions and the people who understand the work have a meaningful opportunity to contribute before major decisions are made.

Excerpts from Casey's campaign website. County work is shared work; projects are at different stages. Follow each section link for the full role, status and context.
